

# WORLD ELEPHANT DAY: DIY Elephant Wire Wall Art

## What You'll Need:

- Tensioning wire
- Sketch of an elephant (printed or drawn)
- Protective gloves
- Pliers
- Wire cutters
- Spray paint (optional)

### 1 Gather Your Materials

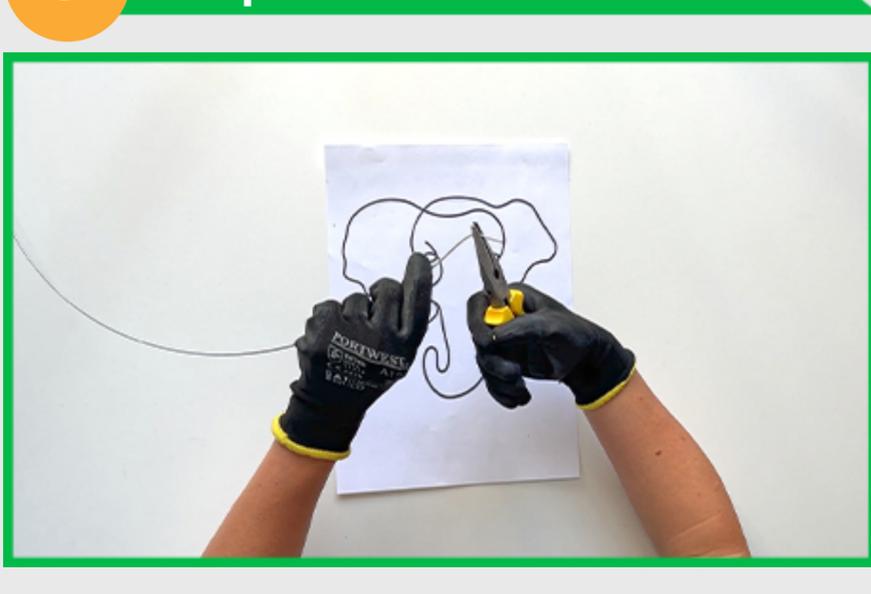

Gather the materials needed for this project.

### 2 Cut the Tension Wire

Cut a piece of tension wire into the desired length.

### 3 Shape Your Wire Wall Art

Begin forming the wire around the template or freehand it. Use the pliers to help bend it into curves and shapes.

Start with forming the head.

### 4 Finish the Shape

Continue bending the wire to complete the outline of the head, returning to the starting point.

Twist and secure the ends.

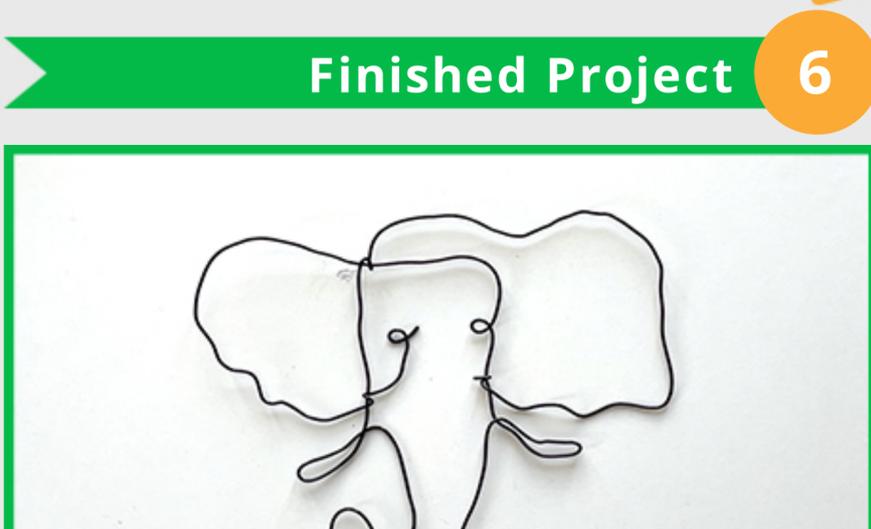

Use your pliers to tweak and adjust the shapes until you are satisfied with the overall look.

### 5 Paint Your Shape

Optionally, you can paint it to any colour you'd like.

### Finished Project

Congratulations! You've created a beautiful elephant wire wall art.
